

ALA rejects the coup in Bolivia

The Board of Directors of the Latin American Anthropology Association (ALA) strongly rejects the coup d'etat perpetrated on Sunday, November 10, 2019 in the Plurinational State of Bolivia by the Armed Forces and civil sectors of that country.

We condemn the violent and racist expressions confronting Bolivianxs among themselves. We urge the international and Latin American community to ensure the integrity of the members of the deposed government and the entire Bolivian people.
